

KEYSTONE FINE WINES

Lariana Cellars, a family owned winery located on the western shore of Lake Osoyoos in southern British Columbia, hand crafts exciting, character-driven wines from estate-grown Cabernet Sauvignon, Carménère and Viognier with small amounts of Syrah and Viognier purchased from Red Brick vineyard in Osoyoos.

Quite literally across the road from the Canada-US Border, the vineyard benefits from its proximity to Lake Osoyoos enjoying both hot days and cool nights, thus helping ensure the preservation of enough beautiful acidity, key to helping to keep the wines carefully balanced.

In 2012, after selling their grapes for three years, Lariana Cellars proudly bottled their very first vintage. Owners Carol and Dan Scott believe in the mantra of quality over quantity with their grapes, both those grown on their 2 hectare estate vineyard, and the small amount they purchase. Opting to design a modest winery building was a conscious decision which instead allowed them to invest in top tier equipment including two concrete egg fermenters and a vibrating sorting table for secondary hand sorting. Continuing with the philosophy of investing wisely was the decision to employ from the get-go, the talents and expertise of consulting winemaker Senka Tennant who, as Carol puts it, “has been huge for us”.
